BREAK IN COLD WAVE NEAR

TWO STORES, GARAGE, GAS STATION AND OFFICE ROBBED

Two Gangs Operate in District During Night.

DOORS SMASHED Gasoline Coupons, Candy and Cigars Stolen.

Two stores, a garage, filling station and lumber yard office in the East Liverpool district were looted by robbers last night, according to reports received by police today. Three of the robberies were reported in Newell and two in East Liverpool.

The places visited were the Earl Lawrence garage, Pennsylvania avenue, East End, Midway gasoline station, River Road; Newell Lumber company office, Alex Rubenstein grocery and the Tim Robinson news stand, Washington street, Newell.

Smashing the lock on the front door of the Lawrence garage the culprits entered the office where they secured a bank containing \$3 in money, six flashlights, one carton of cigarettes, six boxes of cigars, bunch of Ford keys, candy and chewing gum.

Break Glass in Window. At the Midway station, about \$200 worth of gasoline coupons and a revolver were taken. Entrance was made by smashing a pane of glass and turning the lock in the window. This is the seventh time that the filling station has been visited by thieves within a year.

Entrance to the Newell places was effected by breaking the glass in the front doors. The culprits secured cigars, cigarettes and several magazines at Robinson's while the loot from the Rubenstein store included meat, dry goods and shoes. Nothing of value was reported taken from the office of the lumber company.

Constable John Talbot is making an investigation of the Newell jobs.

ALBUQUERQUE, N. M., Dec. 9.—BITTER weather in this Western country, where trains climb over the continent's rocky backbone. A blizzard sweeping out of the North through Montana, Wyoming, Northern and Eastern Colorado wiped out memories of that "unseasonable hot weather." Fourteen degrees below zero is the record in some places. Examining car wheels at Las Vegas this morning, knocked great masses of ice from the trucks. This is printed to please dwellers in California, Florida and along the Gulf coast. When we are warm it is pleasant to hear of cold weather. Cotton Mather said bliss in heaven would be greatly increased by looking down at the torment of friends and acquaintances in hell.

OUT here men are interested in the earth. One man in the smoking room tells another "when you plant radishes below the frost line they will keep coming up for three years. I planted turnips below frost and they came up for seven years." That interested the other man.

ANOTHER shows his neighbor pictures of modern machinery used on Zuckerman Brothers' potato farm in San Joaquin county, California. One man drives a huge machine and gathering three rows of potatoes at once. One man in a small tractor pulls a wagon beside the potato digger, which delivered potatoes into the wagon as they are dug and gathered. Two men do the work of 60 working men under old methods. The Zuckerman's gather crops economically and also raise gigantic crops, holding the world's record for potato production 192½ sacks of potatoes from one

FISHERMEN MAROONED ON ICE FLOES ATTACKED BY PIRATES

MOSCOW, Dec. 9.—Pitched battles between hundreds of fishermen marooned on ice floes in the Caspian sea and bands of marauding pirates seeking to plunder the helpless, half-starved fishermen were reported today.

One pirate was reported killed and several others wounded.

Seven hundred fishing smacks

have been stranded amid the ice following the storm of November 29.

Rescuers attempting to aid the marooned men are in constant peril from the pirate activities.

MONTREAL, Dec. 9.—Shipping was crippled today by the zero gale which struck the St. Law-

rence valley at sundown yesterday, causing a drop in temperature of almost 40 degrees in four hours. Into the teeth of the gale, with a sudden freeze up of navigation as their greatest threat, lake and sea going freighters were rushing through in an effort to make port before winter locks

them fast in its iron jaws.

The S. S. Chicago Tribune made Montreal at night, and will go into winter quarters here. She was assisted by government ice breakers.

In the ice-bound gulf is the S. S. Foremost, trying to make Montreal, but may have to tie up

for the winter at Quebec. In the canals leading to the Great lakes, efforts are being made to keep locks in operation in the face of difficulties from ice, to enable all ships to reach port. With present temperatures, freezing up is inevitable within 24 hours, it is believed.

ZERO WEATHER GRIPS CITY AND HITS PHONE, CAR SERVICE

Twenty-eight Deaths Reported in Middle West.

CHICAGO SUFFERS

St. Lawrence Valley Shipping Crippled by Gale.

With a break in the cold wave expected tomorrow, zero temperatures were recorded in the East Liverpool district early today.

Warmer Tomorrow Forecast. Zero readings at 6 o'clock this morning were reported from the North side and Pleasant Heights, while the mercury registered two and three degrees above in the downtown zones.

Street car service on the main line was hit at 6:45 o'clock this morning when a trolley wire snapped near Eighth and Main streets, Wellsville. About an hour was required to make repairs, during which a single track arrangement was in effect.

The Ohio Bell Telephone company reported 30 telephone stations "out of order" due to broken wires caused by the cold weather and the high winds yesterday. Toll lines to Akron and Canton were affected this morning but were ready for service at noon. Temporary repairs have been made to the lines in Clark avenue in the lower part of Wellsville which were carried to the streets when poles were toppled by the wind yesterday morning.

The Ohio weather forecast is "not so cold" tonight and slightly warmer tomorrow. Snow for the eastern part of the state is forecast for the central part of the state.

Farmers Hard Hit.

CHICAGO, Dec. 9.—A lull in the record December cold wave, which during the past 26 hours has paralyzed Chicago and the middle west with its zero grasp, was promised for today by the local weather bureau. Slight moderation should begin this forenoon with a further rise tomorrow, according to the forecast.

Eight deaths in Chicago and a score more in other sections of the affected area, were caused directly or indirectly by the severe cold. The frigid wave caused more suffering than usual because it caught so many people unprepared and followed quickly on weather that had been mild and springlike.

Humans were not the only sufferers. Cattle and livestock over the middlewest were trapped by the suddenness of the blizzard, which rode in with mountainous banks of snow and sent temperatures down to zero and in some sections ten and twenty degrees below.

Farmers will suffer heavy losses in livestock and considerable damage to property from the Tornado-like winds. The wind reached a velocity of 60 miles an hour in Chicago and caused much damage to suburban property. Cities in Indiana reported plate

OHIO SHIVERS DURING NIGHT

Thermometers Dip to Low Marks, Reports Show.

COLUMBUS, O., Dec. 9.—Ohio thermometers dipped to low marks for the season at a number of points over the state last night, according to reports reaching the U. S. weather bureau here today.

Cincinnati, Cleveland and Toledo all reported the coldest temperature of the day so far. An unofficial report from Zanesville stated that zero weather was recorded in that section before daylight this morning. Weatherman Alexander said the report was probably correct since that section of the Muskingum valley usually has temperatures from five to 10 degrees lower than those recorded here.

Warmer weather tomorrow and snow Saturday night may be expected in the central part of the state, according to the weather bureau.

TROLLEY CAR FIGHT SETTLED

HILLTOP RUNS RESUMED AFTER COUNCIL ACTS

New Franchise Voted for Maplewood District.

LOWER TRACKS City Will do Necessary Grading Work.

Street car service to Thompson Park on the Grandview line, withdrawn five days ago, was resumed by The Steubenville, East Liverpool & Beaver Valley Traction company today, following adoption of a new franchise agreement, acceptable to the railway owners, at an adjourned meeting of the city council last night.

Provisions of Ordinance. The ordinance, which requires the city to grade a section of St. Clair avenue occupied by the car tracks and provides for rebuilding the line between La Belle avenue and the boulevard by the traction company when the grading is completed, was passed on three readings under suspension of the rules without a dissenting vote. Mayor Ralph C. Benedum, who attended the meeting of the legislators, immediately signed the ordinance.

The company withdrew street car service north of the entrance to River-view cemetery last Sunday after rejecting a franchise ordinance adopted by council about a month ago which, it is claimed, required the company to bear the entire expense of grading the street for the reconstruction of the tracks. At a conference with representatives of the city administration, Tuesday, the car line owners expressed a willingness to operate cars on the line of the city would grade

Bobbed-Haired Widow In Lilliendahl Case May Escape Prison

Willis Beach, Poultry Farmer, Found Guilty With Her of Involuntary Manslaughter, May Make Chivalrous Attempt to Absolve Woman.

MAYS LANDING, N. J., Dec. 9.—Mrs. Margaret Lilliendahl, bobbed-haired widow of Dr. William Lilliendahl, for whose murder she was convicted, may escape a prison sentence.

It was learned on good authority here today that the under-sized poultry farmer who was found guilty with her of voluntary manslaughter, may make a chivalrous attempt to absolve the widow of all blame in the crime.

The couple, whose love affair, the jury believed, led to the killing of Dr. Lilliendahl in a patch of woods near Hammonton on September 15, were to face Supreme Court Justice Luther A. Campbell for sentence tomorrow. The maximum sentence that can be imposed is ten years in prison and \$1,000 fine. A jail term of one day could be given.

Will-Seek Second Trial.

Justice Campbell was prepared to pass sentence late yesterday when the verdict was returned by a jury which deliberated more than 23 hours. Robert H. McCarter, chief of defense counsel, told the court, however, that new evidence warranting a second trial had been unearthed since the jury began its deliberations, and he was given until tomorrow to prepare a brief.

This new evidence is alleged to be based on the assurance that Beach will come to the widow's rescue. He is said to be anxious to obtain for her a new trial.

"Loose Talking" Juror Hints New Scandal

"Good Yes and No Man" in Fall-Sinclair Trial Visits District Attorney.

WASHINGTON, Dec. 9.—Edward J. Kidwell, alleged "loose talking" juror in the Fall-Sinclair conspiracy trial, came voluntarily to the district attorney's office today and asked for permission to draw up a new affidavit bearing on the surveillance of the jury by Burns agents.

The district attorney's office indicated that Kidwell had related that "through a friend or some member of his family" he had been made "some offer in connection with the case."

At the court hearings yesterday, Frank J. O'Reilly, a Burns agent, submitted a report about "the brother of No. 3, in whom we are interested."

Kidwell was known by this number among the Burns agents who shadowed members of the jury.

It was indicated that this report brought Kidwell to the district attorney's office.

Harry F. Sinclair, William J. Burns and four associates are standing trial for conducting an alleged "improper surveillance" over the Fall-Sinclair jury.

The Christmas Goods Are Perfectly Lovely and the Whole Store is This Moment at Its Best

"Backward, Turn Backward,

"O Time, in your flight
Make me a child again just for tonight."

These beautiful words written by Elizabeth Akers Allen, in Portland, Maine, long years ago, were never more present in mind nor memory than in this unexampled time of "Christmas for the children." It can never, never be—Never for the Grown-ups—Except in memory.

But with these sweetest memories comes the inevitable realization of how short and fleeting all childhood is and how rich is our privilege to crowd all that is possible of happiness into those few years.

Settlement Of Street Car Dispute

As a cold wave gripped the city, the Steubenville, East Liverpool and Beaver Valley Traction company resumed the operation of cars on the section north of the Riverview cemetery gate—a zone that had been without service for five days.

With the city council in a sensible mood, the dispute over the lowering of the tracks to the grade of St. Clair avenue was settled without even a debate last night. By a unanimous vote of the six members present, a new franchise ordinance was granted, and it was accepted by the railway owners.

Under the provisions of the settlement, the traction owners will lift their rails and rebuild and ballast their tracks, while the city will do the grading work.

Thus, happily, East Liverpool has solved a problem that means much to the people of the Maplewood and Thompson Park districts. And, incidentally, the situation drove home to the public the necessity of street car service.

Four Items of Progress

Newton D. Baker, secretary of war during the latter part of Woodrow Wilson's presidency, yielded to a newspaper reporter's request the other day and glanced back over the past quarter-century for changes. He found that, in his opinion, the world is improving. He named four items of betterment.

Business morality has infinitely improved over what it was even 20 years ago. Modern conveniences have given more leisure which the public is using more wisely. The political life of the country has vastly improved—the oil scandals and other evils of the period are bad enough, but should not be considered typical of the times or of the whole political field. Education has improved in technique and content.

There are occasions when it takes much optimism to see these gains. But an honest and intelligent persons must recognize that on the whole they are accomplished facts.

This does not mean that there is no room for further improvement. It does hold out the hope that if so much improvement has been possible in the past, still more will be possible in the future.

Roofs As Billboards

An "outdoor advertising man," rising in a big passenger airplane the other day, simply ached to get into action as he passed mile after mile of buildings whose roofs were not being used for any other purpose than protection against the weather.

He vigorously explained to the other passengers what a wonderful advertising opportunity was being wasted. He wanted to start right out and paint trademarks and slogans and pictures of cigaret smokers on all those roofs.

Some of the passengers were not so enthusiastic about it. They delicately tried to convey to the energetic publicity man that they thought the roofs looked better as they were; that if anything were to be painted on roofs, perhaps it should be traffic signs for fliers; that there were plenty of billboards down below, of the vertical type, without turning all the roofs into billboards; that in fact, one of the pleasantest things about airplane travel was the relief it afforded sensitive people, in getting away from billboards.

Winter Building

As winter settles down, one of the most notable phases of the business situation is the amount of "winter building" going on in this country.

This is true alike of public construction, corporate construction and private homes. In many communities this last factor is the most remarkable of all. Ground is being broken right along for new buildings.

This is one of the most satisfactory industrial developments of recent years. It is easy to recall the time when nobody thought of building any kind of structure that would require outside work during the winter months, in the great areas of freezing weather or heavy rains.

Builders thought it couldn't be done. Investors were afraid the buildings would be ruined in process of erection. It has been found, however, in practice, that it only requires a little extra care to prevent freezing of mortar or cement, during particularly cold weather, and a little more protection against rain, and a little warmer clothing for outside workmen. Such losses as are caused by occasional delays in the work are usually more than made up by the saving of interest on the investment, the saving in cost of labor and materials during the "off season" and the advantage of having the building done when spring comes.

Thus one of our "seasonal" industries is becoming an all-the-year-round industry, to the great advantage of the building trades and building material industries, and with a steadying effect on general business.

Now we know why this canny generation deserts the home. A statistician reveals the fact that the home is more dangerous than the street—there are more people killed there by accidents.

No taxpayer can ever understand why the other fellow's taxes should be reduced.

The way to disarm is to disarm; but everybody wants to disarm the other fellow instead of himself.

The other nations would give up armament more readily, at Russia's invitation, if Russia would give up red propaganda.

AT ANY RATE THERE IS ONE MOTHER ON THE MORE EXCLUSIVE SIDE OF THE R. R. TRACKS WHO DOESN'T THINK MCGUIRE SUCH A TERRIBLE PERSON.

NEW YORK, Dec. 9.—Thoughts while strolling: Stanford White's son—also an architect. Yellow-wheeled Victorias. A girl flips away a cigarette—and enters a religious book shop. Earl Benham, the movie actor, who became a fashionable tailor. Irene Hayes, the florist.

Those tired commuter mothers dragging children. Alfred K. Koopf, the publisher. The vacant stares of the thumb-twiddlers in club lounges. The new hotels, so white and chaste. Stark, stripped trees in Central Park. And fleecy clouds filling by.

The continuous murmur of the Plaza fountain. And the chirp of crowds going to tea. A smiling blind boy taps along. The row of yawning cab-men with their spring-hatted nags. Florist boys rush along with flowers for the evening. Ted Lewis, a Circleville, O., boy who made good in the city.

A lunch wagon called "The Elysian Palace." Smelling of fried onions. A dog shop run by Chinese. The Eighth Avenue board-walk. Hobo anarchists and Salvation singers. The first faint flush of Broadway's jazz glare. Whatever became of paw-paws? There's a fruit. The home-going jumble. Girls rousing as they skip along. Smirking at by those middle-aged curb loafers. Who resemble fat white grubs. Thousands grabbing newspapers—and scuttling down subways. Dark Chinese restaurants flash their outside electric glitter.

The green glow of quick photo shops. Nut stores. Song sheet jukeboxes—with pale piano pounders. Window machines grinding out countless cigarettes. The flashily dressed men with beady eyes who stand in front of cheap lunches. And bite off their words.

Night workers digging frantically for hidden pipes. The groups of chorus men who stand aloof in shadows. Sardis—the restaurant where patrons are caricatured. A chocolate colored actress in a huge leopard skin coat hops out of a green limousine. C. P. Greneker, the Shuberts Major Domo.

Five old-timers are clicking in a hit musical show—Elizabeth Murray, Josephine Sabel, Barney Pagan, Jim Thornton and Sam Morton. Miss Sabel was the original coon-shouter.

Abe Martin Says:

"I wouldn't want to live in a little town where everybody knows everybody else business," is a common expression, but a poplar bank cashier of Arcadia, O., cleaned up \$250,000 in less than two years without anybody getting on.

I'll say this for Mayor Thompson, he don't believe in lettin' George do anything.

HASKIN'S LETTER

By FREDERIC J. HASKIN

The Mystery of Banking.
WASHINGTON, D. C., Dec. 9.—The banking business is one of the oldest businesses in the world but still is regarded by most laymen as a rather

mysterious enterprise. They are right. It is mysterious because the public—depositors and borrowers—bring about a situation which is difficult of explanation.

It is natural to suppose that to borrow and spend money uses that money and therefore depletes the total wealth. The contrary is what actually occurs. Suppose a new bank is opened in a community which theretofore had no banking facilities. It has a capital of \$500,000. As soon as it opens the public flocks to it and borrows. Perhaps half of the original capital is borrowed. That would appear to be a strong blow at the bank, but it is not. The persons who borrow the money deposit it in their own banks in the same bank. The bank also has it.

Now these borrowers spend the borrowed money by giving checks. These checks the bank must pay, but nearly all of them are payable to merchants and others in the community and are re-deposited almost immediately. The original borrower has paid a debt, the creditor has received his money and the bank still has it. Also, when the borrower's note is due he repays the amount with interest.

Still assuming this to be a new bank in a new community it is discovered that the community very soon realizes the convenience of paying bills by check. This results in a surprising increase in the bank's deposits. Money is brought forth from stockings, from tin cans, from holes in the wall, and deposited in the bank. While a bank must always maintain a certain reserve it nevertheless is free to lend a proportion of the money deposited with it. Therefore, the bank has its original capital and the additional deposits to lend and even the amounts lent usually remain on deposit.

The mystery about the banking business is that while the bank is lending money to others it retains the use of that money and usually attracts more. Assume that a merchant desires to purchase a line of goods and borrows from the bank to pay for them. He receives the goods, sells them, and makes a handsome profit, and the loan repaid with interest. The operation is repeated and still more money is deposited. Both merchant and banker gain by the operation.

Also a Safe Business.
With all its mystery the banking business is one of the safest in the

world, provided the banker obeys the national banking act and uses reasonable judgment. Indeed, he can even use bad judgment to an extent and still remain solvent, if he is honest, because the law prevents him from ruining himself and his bank. It is the banker who tries to evade the law and profiteer unfairly who fails.

To be sure it can not be said that all banks which fail do so because of dishonesty on the part of the banker. In the last few years the United States experienced many bank failures, especially in the West. This was due to the fact that entire communities, whole states in some cases, suffered heavy losses through bad harvests, insect pests, storms, floods, and other causes entirely beyond the control of man. The people, most of them farmers, had borrowed from the banks in the honest expectation of repaying the loans out of the proceeds of their crops. When, year after year, the crops failed, repayment proved impossible. Borrowers and bankers alike were in bad shape. They all failed together. It was nobody's fault. For example, one section of Montana was unable to raise a crop for five successive years because of drought.

Such a situation is abnormal and fortunately does not often occur. Given normal times and normal conditions, a bank may continue year after year to serve its public and make money for its shareholders.

Honesty, of course, is the prime requisite in carrying on a banking business. There are many banks started with the motive of defrauding the public. Such banks usually do not last long. An officer of the bank may get away with some thousands of his depositors' money but he usually is caught. This matter of honesty relates not only to the banker but to the borrower. A borrower may obtain a loan after giving some very plausible reason, but if he is not honest about it, he interrupts the machinery of banking by throwing the monkey wrench of dishonesty into the wheels.

Credit is an intangible factor. The good banker becomes an excellent judge of men and learns to know which of his customers are innately honest and which are not.

Morgan's Views on Credit.
There is a story which will live for all time about this matter of credit. Some fifteen years ago the house of

Coach Lomond Cuts Candidates' List in Workout.
FAST QUINTE Expect Speed and Five-Man Defense Will Win.

After two weeks' drilling of Lincoln high school basketball candidates, Coach Lomond put the knife to his squad yesterday afternoon for the final pruning before the Blue and Gold's first game of the season with Newell high, December 20, to be played in Lincoln gym.
As in football, Midland will present an unusually light court quintet this year. Coach Lomond will rely on developing a speedy attack, coupled with the five-man defense to outwit the West Virginians.
Although he has not yet decided who will start in the Newell game, Lomond said today the team will be chosen from George and Louis Sufferette, Louis Glumac, William Spensak, Joe Weir, M. Rosen, Lloyd Glass, Paul Samuels, John Dawson and Joe Morgan.
Others who survived yesterday's training are: Frank Lento, Morris Goodman, John Kenney, Allan Heynolds, Guy Tont, Robert Neider, Sam Yurch, Howard Erickson and Robert Morgan.

MIDLAND MAN GRANTED PATENT

William S. Coleman, of Midland, has been granted a patent for a draft machine, it was announced today. Coleman applied for his patent April 21, 1926.
The invention consists of a wheel provided with rows of pockets side by side on its circumference, into which pockets of air under forced draft is blown, thus causing the wheel to revolve.

HOWELL HELD AS SUSPECT IN STEUBENVILLE JOBS

POLICE RETURN HERE WITHOUT WANTED MAN

Suspect Ex-convict in Series of Hold-ups.

JAIL TWO PALS

Hint Prisoner Was Member of "Night Rider" Gang.

Believed by police to have been the leader of a series of holdups and robberies in the Steubenville district, Jerry Howell, 32, ex-convict, will not be turned over to the East Liverpool authorities for prosecution upon charges of highway robbery and shooting with intent to kill until the Jefferson county authorities complete their investigation.

Chief of Police McDermott and Captain Mason Conley went to Steubenville yesterday to bring Howell, who was arrested there Wednesday night, back to East Liverpool. Steubenville police advised McDermott and Conley that they believed Howell and two companions, who were arrested at the same time, were implicated in daring jobs which have been reported in the Steubenville district.

Howell, who escaped from Captain Conley during a gun battle in Second street about six weeks ago, after Conley attempted to arrest him for the hold-up of Thomas Palmer, motion picture operator, was arrested by Steubenville police on a tip received by Conley Wednesday night.

With Howell at the time of his arrest were Cecil Ray, 28, Parkersburg, and Ralph Straka, 24, who is alleged to have been connected with auto-bike thefts in Steubenville recently. Howell denied that he was a brother of Dick Howell, gunman, who was electrocuted for the murder of a Canton detective several years ago.

Pittsburgh detectives who visited Steubenville yesterday expressed the opinion that Howell and his two friends were connected with the "Night Rider Gang" who were there a few days ago and who, it is alleged, have confessed to a number of hold-ups and robberies. The detectives went to Wellsburg where they planned to make a check-up of robberies.

Local police today were attempting to run down a report that Howell, after his escape from Conley on October 31, returned uptown where he robbed a man at the post office, gun, robbing him of \$50. The alleged bandit told his victim that he would "blow out his brains" if he "squealed" to the police. The man did not report the hold-up.

COMB WOODS FOR BANDIT

BRYAN, O., Dec. 9. — The second alleged bandit, accused of having participated in a bank robbery at Huntertown, Ind., yesterday afternoon, was captured in a barn just across the Michigan state line, and near Hillsdale, Ohio, at noon today.

The fugitive was trailed by bloodhounds and a sheriff's posse last night. When caught, he had about \$800 in cash and two revolvers in his clothing. It was reported. Authorities said he gave his name as John Smith, 30, of Indianapolis.

BRYAN, O., Dec. 9. — About 50 men, making up a sheriff's posse, were searching the woods near Honer for a man believed to be a bank bandit and a companion of Charles Howells, 26, of Indianapolis, who was arrested last night.

VOTE QUESTION UP TO TURNER

COLUMBUS, O., Dec. 9. — Attorney General Edward C. Turner today stated that he had under consideration the request, submitted by Secretary of State Clarence J. Brown late Thursday, for a ruling on the question whether the electors who were in the voting booths at McDonald village last election awaiting ballots when the polls were closed should be permitted to vote.

Turner said he expected to announce his decision in a few days.

SCHOOL PUPILS SELL SEALS

Christmas Health Committee Appeals to Lodges.

School children yesterday began the sale of Christmas health seals here. Campaign in the schools will be continued until next Tuesday.

The health seal organization will furnish a framed health seal bond to each building which sells not less than \$25 worth of the penny adhesives. These bonds come in denominations of \$25, \$50 and \$100, and the denomination of bond which will be furnished depends entirely upon the sales reported from the building.

The committee today appealed to churches, fraternal bodies, clubs and other societies to purchase the bonds, which are also available in \$10 denominations. All bonds of the \$25, \$50 and \$100 denomination will be framed for the purchaser.

Collections at the booth in the post-office yesterday amounted to \$62.50. The committee in charge included Mrs. Harry Watkins, chairman; Mrs. W. N. Calhoun, Mrs. Jane Chetwin, Mrs. Norman Pilgrim and Miss Camille Faulk.

The street. This offer was virtually accepted at a caucus session Tuesday evening, Solicitor Frank Hoover being instructed to bring in the necessary legislation.

Three Street Crossings. The ordinance provides that the street car company shall lift their tracks north of LaBelle avenue, which is the end of the old city limits, so that city and can begin grading the street not later than April 1, 1928.

The company upon completion of the work will rebuild the tracks. There will be three street crossings over the new section of roadbed to be built by the railway company. Written acceptance of the ordinance must be filed by the company with the mayor within 10 days.

Attorney S. W. Crawford, representing Maplewood residents, urged passage of the ordinance which he said was satisfactory to his clients. Councilmen Farrall and Kelly asserted that if the legislation were satisfactory to Maplewood people they would not oppose it.

Because of illness, Councilman Hayes did not attend the meeting. All other members were present.

The same schedule, which was in effect prior to last Sunday will be followed on the Grandview division, cars leaving the Diamond on the hour, 15 minutes after the half hour and 15 minutes to the hour. Cars leaving the Diamond on the hour and half hour will operate to the park entrance. Those leaving 15 minutes after and 15 minutes to the hour will run only as far as Thompson boulevard.

Ohio Banker Dies

NEW LEXINGTON, O., Dec. 9. — Funeral arrangements are being made today for Robert L. Essex, 62, who died suddenly in his home at New Straitsville, near here, last night.

Essex was president of the New Lexington Savings and Loan Co., and owner of large coal interests in Ohio and West Virginia.

FLOOD CONTROL BATTLE DEC. 13

South to Oppose Army Engineers Plan.

WASHINGTON, Dec. 9. — The real battle over flood control today was tentatively set to begin on December 13, when Major-General Edgar Jadwin, chief of army engineers, will be summoned before the House Flood Control committee.

The army engineer's plan, submitted to congress by President Coolidge, is unacceptable to the southern delegations. It was freely criticized today both because it proposes that states immediately affected by floods shall bear part of the cost, and because it does not include many important tributaries.

Representative Frank R. Reid (R) of Illinois, chairman of the flood control committee, characterized it as "an advanced step in the engineering treatment of the Mississippi problem."

acre. Eight acres last year yielded 427.171 pounds of potatoes.

SUCH farming will do more "to help the farmer" than anything that McNary and Haugen can invent. When farmers apply to farming methods what Ford applies in his factory, they will get rich.

EVEN editors are farm enthusiasts here. F. G. Bonifis, whose Denver Post covers many states, got more excited about one hen than he ever did about his newspaper. The hen, Lady Skyline, named in honor of Colorado's high altitude, laid 235 eggs in 235 days. Bonifis recently sent twelve of her eggs to President Coolidge, insured the hen's life for \$1,000 and brought her to Denver, "so the people may know" that Colorado has the best hens as well as the best climate.

MEN out here discuss President Coolidge's message and like it. They say this is a business country, he is a business president and sends in business messages, about things that the country needs. The majority of them think the president will not run again, and are sorry.

A FEW words in the president's message say "We are at peace. The country as a whole has had a prosperity never exceeded. Wages are at their highest range, employment is plentiful."

If that condition lasts, as it probably will, until election day, 1928, what chance is there of putting out the Republican party? Could the Angel Gabriel himself win, if he ran on the Democratic ticket with prosperity and 7,000,000 plurality against him?

More than 2,650 obsolete freight and passenger cars are being scrapped in Czechoslovakia.

Ambassador Herrick returned here last night from New York. He spent several weeks in Hot Spring, Va., recently, recuperating from two major operations.

REMUS DEFENSE RESTS TODAY

Photographer Last Witness Called in Murder Trial.

COURTHOUSE, CINCINNATI, Dec. 9. — The last witness for the defense at the trial of George Remus for the murder of his wife, Imogene, was called to the stand today. He was Clarence Rooney, professional photographer, who testified he had taken forty-eight photographs of the Remus "dream mansion" in Cincinnati before it was mysteriously stripped of its furnishings.

"I will introduce a deposition or two after Rooney finishes his testimony," Remus announced, "and then rest my case."

Two character witnesses for Remus preceded Rooney to the stand this morning. They were Michael Igce, prominent Chicago attorney and politician and former Judge Joseph S. Labay, also of Chicago. They both vouched for Remus' reputation for "peace and quiet" in Chicago when the defendant was a practicing lawyer there.

Ramona Remus, 24-year-old daughter of the defendant sat in court beside her father again this morning. They chatted pleasantly and most of the time Remus held her hand.

SINCLAIR-BURNS TRIAL HALTED

WASHINGTON, Dec. 9. — The criminal contempt trial of Harry F. Sinclair and William J. Burns was halted today over the weekend because of illness of George Hoover, attorney for the oil magnate, and one of the 15 defense lawyers participating Justice Frederick L. Siddons granted the adjournment when Martin W. Littleton, also member of Sinclair's counsel, explained that Hoover was to cross-examine all government witnesses.

Burns, Sinclair and four of their associates are on trial as a result of Sinclair's action in hiring the Burns Detective agency to maintain what the government contends was an improper surveillance over the jury that was sitting in judgment of the oil man and former Secretary Albert B. Fall, charged with conspiracy against the nation.

HOOVER WILL NOT RESIGN

Presidential Race Will Not Affect Cabinet Place.

WASHINGTON, Dec. 9. — Herbert Hoover has no intention of resigning from the cabinet in order to devote his time to the furthering of his presidential candidacy.

That much was made clear today in a most authoritative way. So far as Mr. Hoover is concerned, he is going to continue his serene course as a member of the cabinet, refrain from discussing politics, at least for publication, and permit his friends to do whatever they like so long as they do not embarrass him.

It is a course to Mr. Hoover's personal liking, and one upon which his friends are agreed is best at this early stage of the game. Three or four months hence when the primary fights get warm it may be a different story, but for the time being there will be no change in the status of the cabinet candidate.

The Hoover backers believe their candidate is "sitting on the world." Inevitably, they say, the country will come to accept the secretary of commerce as the Coolidge candidate, even though the president never utter a word in his behalf.

Today the frigid blast, which swept in from the Canadian Northwest, had spread fan-like to all sections of the United States. The cold wave reached its climax here early today and was traveling mainly eastward.

Buffalo's Toll Heavy

BUFFALO, N. Y., Dec. 9. — With its losses estimated at more than three quarters of a million dollars, Buffalo today was recovering from the blizzard and high gales that swept down on the city in the worst seasonal storm on record.

The thermometer at 8 o'clock this morning stood at 10 degrees above zero.

Six men, marooned by the gale and pitching waters on Port Colborne pier, momentarily in danger of being swept into the windlashed lake, had been rescued today after hope had all but been abandoned for their survival.

Flood waters were receding on the south shore of Lake Erie.

The greatest single item of damage here was the wrecking of the Curtis Condor bombing plane, the only one of its kind in existence and built at a cost of \$175,000.

FIVE MEN ARE SWEEPED TO DEATH

MONTREAL, Q., Dec. 9. — Five lumbermen engaged in reeling logs above the big dam on the Gatineau river here, met death when one of their number released the cables prematurely. The five were swept over the dam to their death in the roaring tail race.

Scoring 10 points Troop No. 24 of the Chester United Presbyterian church, Ernest Johns, scoutmaster, was third, while Troop No. 26, of the Chester Christian church, of which Rev. RUTH AND JUDD DEFER APPEAL

Slayers Will Ask Gov. Smith to Act.

ALBANY, N. Y., Dec. 9. — The final appeal of Governor Smith to save Mrs. Ruth Snyder and Henry Judd from the electric chair will not be made until a few days before January 12, when the pair are scheduled to die.

It had been expected that the governor would hear the appeal for executive clemency the latter part of this month.

When Mrs. Josephine Brown, mother of Mrs. Snyder, made a tearful plea yesterday to the governor for clemency for her daughter, the governor said: "I have a duty to perform for ten million people but I will give the case careful consideration. After the opening of the legislature I will be able to devote much time to a study of the case."

Snowden Is Elected High Grid Captain

75 Attend Mothers' Banquet; Victory Alone Not Essential to Successful Season, Says Coach in Address.

"What constitutes a successful football season?"

This question was the subject of an address by Earl S. Klinck, coach of the Wellsville high school football team, at the annual banquet given by the mothers of team members last night in the dining room of the First Christian church. Seventy-five were present.

"Many people," said Coach Klinck, "believe that winning all of the games on the schedule constitutes success. Others, not so exacting, grant the season a success if only a majority of the games are won, while others are satisfied if the only victory is that over East Liverpool in the Thanksgiving game."

The coach then asserted that in his opinion, a successful season must embrace a number of things and, in his view of sport, winning a lot of football games is not the most important, although a desirable by-product.

If the boys have learned their lessons well, if they have trained con-

scientiously and benefited physically thereby, if they have mastered the art of self control and absorbed the outstanding science of the game which, after all, he said, are among others, the principal goals in school sport, the players have achieved a large measure of success in the opinion of the Orange grid mentor.

Other addresses were made by Dr. J. S. McCulloch, representing the board of education, Rev. T. G. Berger, pastor of the Second Presbyterian church, in behalf of the fathers; and Faculty Manager Robert Trumbull, in addition to talks by members of the team, including Captain Edward Irons and Robert Deuval, the latter discussing the theme, "What a Boy Learns in Four Years of Football."

James Snowden, junior, was unanimously elected to the captaincy of the 1928 Orange and Black squad.

Snowden was one of the outstanding members of the Wellsville line this year, playing an end position on the varsity eleven most of the time, and filling on an occasion or two, at fullback while Captain Irons was kept idle by injuries.

Superintendent S. E. Daw acted as toastmaster. Music was furnished by the high school orchestra.

Arrangements for the dinner were carried out by Mrs. J. T. Shea, chair-lady.

FRIENDLY CIRCLE IS ENTERTAINED

DAMAGE SUIT IS DISMISSED

Limitations Bar Recovery in \$75,000 Action.

Statute of limitations which, it was claimed, barred any chance of recovery of damages in the \$75,000 damage action of Harry Paisley against George M. Aten, Wellsville, was urged by the defense in court Thursday.

Paisley, in his suit, charges alienation of affections. For want of prosecution the case was dismissed by Judge W. F. Lones.

Some time ago Paisley filed the suit in court demanding \$75,000 from Aten for the loss of the love of his wife, Georgia.

All of the allegations set forth in the petition were said to have occurred during the winter of 1918 and 1919, and the defendant, by way of defense, claimed that all this did not occur within four years before the action was filed, and that, therefore, the statute of limitations barred all chances of recovery.

ADVICE TO BUYERS.

Moose Dance Tonight.

A dance will be given at the Moose hall, Fourth and Washington streets, tonight. The DeMar Miller Orchestra will be in charge of the music.

I'm not dancing-

It is only an unenlightened woman who still suffers painful periods. The old-fashioned girl who must "keep off her feet" has not learned of Midol. Take a tiny tablet of Midol—and forget the time of month. Midol is not a narcotic. It does not interfere with the normal, necessary process of menstruation. But it stops the pain. It brings complete ease in five to seven minutes. And the woman who anticipates her time and takes Midol beforehand will have no pain at all. Midol is the work of specialists. It is effective no matter how hard a time you've always had. Try it! All drug stores, in a slim aluminum case to tuck in purse, for fifty cents.

Sportraits

BOBBY JONES

BOBBY JONES deserves the title of champion more than any other leader in sport. In many branches there is always a dispute as to who is the best. Dempsey is better than Tunney; the Yankees are not the strongest team ever assembled; Grange isn't the greatest football player ever developed; and so on. But in golf Jones' supremacy is admitted by all. The general opinion is that there never was another Bobby Jones and it will be many moons before another bobs up.

TEX WILL BURY YOUNG GRIFFO

NEW YORK, Dec. 9.—Promoter Tex Rickard will bury Young Griffio, the famous boxer who died penniless here Wednesday. The promoter will defray all expenses and has purchased a plot in Woodlawn cemetery.

Funeral services will be conducted Sunday afternoon.

ADLER CAPTAIN OF COLUMBIANS

NEW YORK, Dec. 9.—William J. Adler, newly elected captain of the Columbia football team, is the third New Yorker within the last four seasons to be chosen for the Blue and White captaincy. Adler is a guard.

Prepared for Coast Game.

PHILADELPHIA, Dec. 9.—For the first time since it faced Cornell on Thanksgiving day, the University of Pennsylvania varsity football squad is working out on Franklin field in preparation for the coast game with California, December 31.

SORE ARM 'MADE' WANER

THE leading batter of the National league, world's series participant, and voted the most valuable player to his team. All this is credited to Paul Waner in his second year in the big leagues.

No other player has experienced a more meteoric rise to fame than this youthful Pirate outfielder. He started out as a pitcher about seven years ago, playing semi-pro ball around Oklahoma, his home state. It was a hurler that he attracted the attention of a San Francisco scout who brought him to the coast league team. But upon his arrival he developed a sore arm, probably the best thing that ever happened to him, and always a good hitter, he was converted into an outfielder. In 1923 he plastered the ball at a .359 clip and followed up with a .355 average for 1924. He was robbed up by the Pirates after finishing the 1925 season with an average of .401, leading out 280 hits. With the National leaguers he hit .336 in 1926 and led the league with a .379 mark this year.

He has already had quite an increase in salary since joining Pittsburgh and at the rate he is going will soon be able to demand one of the latest pay envelopes.

The selection of Waner as the most valuable player in the National league makes it 2 to 6 for the young stars over the veterans. Lou Gehrig, who won the honor in the American league, is the same age as Paul. The Yankee first baseman, however, has been in the major a year longer than Waner.

Delaney Is Favorite In Berlenbach Bout

CHICAGO, Dec. 9.—Further proof that history repeats itself, not once but several times, will be offered an earnest group of pugilistic researchers by Professor James Mullin at his Coliseum laboratory tonight.

The objects in this experiment will be Jack Delaney, a self-effaced champion of the light heavyweight division, and Paul Berlenbach, another ex-fighter, whose effacement was not so voluntary.

It will be the fourth time this pair has met. But the first time in Chicago. They are scheduled to box ten rounds, to a decision, at catchweights. Neither will weigh over 175 pounds.

The issues involved are not quite clear, but the ballyhoo has it that the winner will stand an excellent chance of meeting Gene Tunney when the heavyweight champion fights here next summer for Promoter Mullen.

As long time draws near, Delaney rules a 7 to 5 favorite to win, all sorts of freak bets are reported, a few offering odds that Delaney will win by a knockout.

Delaney and Berlenbach first met in 1924. Jack stopped the Astoria assassin in the fourth round. They met again in 1925 and Berlenbach won the decision at the end of 15 rounds. In July of 1926 they met for the third time and Delaney won a 15-round decision and the light heavyweight title.

HAINES HONORED AT GOTHAM FETE

NEW YORK, Dec. 9.—"Hinky" Haines, star quarterback of the New York football Giants, today was the proud possessor of a handsomely engraved platinum watch, presented to him at a banquet given by 300 industrial leaders and sporting celebrities last night in honor of the former Penn State star. Haines' father, who is the mayor of Red Lion, Pa., was present.

Will Launch Guilford Park Job in Spring

The Columbiana County Fish and Game association at a meeting here formulated plans looking toward pushing the construction work at Guilford state park just as early in the spring as the weather will permit. Through the efforts of Ed H. Campbell, of Salem, president of the state board of agriculture, the state has set aside money to clean up the state park land so it will be ready for construction work in the spring. Work on the spillway for the dam and enclosures for the side of the lake will be started early in the spring according to promise.

The county commissioners will be asked to improve all roads leading to the state park, and petitions asking for this improvement will soon be circulated for signatures.

The next meeting of the Fish and Game association will be on the third Monday in January, when new officers will be elected. The membership campaign will begin early in January.

YALE MAY TRY TWO-TEAM PLAN

NEW HAVEN, Conn., Dec. 9.—Michigan's twin-team football innovation, under which one eleven will play at home next fall while the other meets opponents on foreign gridirons, is being considered unofficially at Yale.

Advocates of the plan point out that a reserve team could play other Connecticut teams and teams in nearby states. The plan also would be in accord with Yale's policy of "athletics for all students," it is argued.

NEW CASL TE WINS AT COLUMBIANA

COLUMBIANA, Dec. 9.—In the first game of the basketball season at Columbiana, the Rick Overlands, of New Castle, Pa., last year's class "A" champions of Western Pennsylvania, defeated the Columbiana "Boosters."

43 to 35, in a game that was as fast and interesting as the score indicates. Dowd, Barbe, Hawkins, Orr and C. Burke started for Columbiana, Kyser, McFadden, Graham, Barr and Caines also being used for a portion of the

game. Davy Williams of Girard, was the referee. Center Pauley, of New Castle, was the star for his team, making 29 points, while Burke for the Boosters, led with 13. The Columbiana home games will probably be played on Tuesday nights, out-of-town

games being scheduled for Thursday nights.

Tuesday afternoon after school Columbiana High school boys and girls played practice games with Fairfield High, the local teams winning easily. The girls' score was 42-16 and the

boys' 19-6. Coaches Miller and Barba used various combinations of players as experiments for Friday night's lineup, when the local teams go to Boardman to meet Coach "Buck" Burke's teams in their first regularly scheduled games.

WAR COST FOR U. S. PUT AT 35 BILLIONS

Secretary Mellon
Gives America's
Total Bill.

MAY GO HIGHER

Figure is Correct
if Allies Pay
Debts.

WASHINGTON, Dec. 9. — The World War cost the United States government \$35,119,622,114, assuming that the debts of the allied countries are paid eventually.

This was disclosed in the annual report of Secretary of the Treasury Mellon to Congress.

Mellon showed that the total war costs to this government have amounted to \$47,957,272,333 up to June 30, 1927. Receipts, resulting from war time expenditures, including sale of surplus property, interest and principal payments on war debts and other items totalled \$3,634,417,000 up to the end of the year, while in the "asset" column is given \$9,153,232,579, including \$7,476,000,000 due on war debts.

The "assets" were referred to as "partly estimated."

Military Expenses.
Military activities of the war cost \$16,283,569,000 and those of the naval forces \$3,480,781,000. The interest on the war debt up to June 30, amounted to \$8,116,343,000, an item that will continue, although on a decreasing scale for about 30 years. Care of the government's wards, as a war result, had cost \$2,548,917,000 to the end of the year.

The foreign obligations outstanding June 30 amounted to \$9,598,236,000 upon which \$1,743,936,000 had been paid. On the foreign obligations the government "stands" to lose \$334,506,169, according to Mellon's report.

The first attempt by Baroness Kinako Shirane, wife of an official in the household department of the government of Japan, to paint a picture, was recently admitted to the Imperial Fine Arts Society Exhibition at Tokyo.

FOUR SAY ADS IN REVIEW PAY

Here is concrete evidence to prove that Review-Tribune classified ads pay.

Mrs. Ruby Alley Pickard lost her pocketbook containing money, glasses, keys and other valuables Sunday evening. She inserted an ad in Monday evening's paper and the purse was returned to her by Andrew Houser, Orchard Grove avenue.

While shopping in Ogilvie's store a few days ago Mrs. R. L. Cawood's purse was stolen. She was anxious to have her keys and followed the classified route. The purse and keys were found in the vestibule of the First Presbyterian church where they had been discarded by the thief. L. W. Glass, janitor of the church, turned the purse and keys over to Mrs. Cawood.

Another Christmas shopper lost a roll of money in front of the Ogilvie store and inserted a "lost ad." The money was returned to the Ogilvie store by a woman after reading the newspaper advertisement.

H. A. Leith, proprietor of the Quality Feed Store, Wellsville, had five cows which he wanted to dispose of. He called the classified ad department. His cows were quickly sold and he could have disposed of as many more had they been available, he said.

Swimmers in "Dog Race."
Capitalizing the popularity of greyhound racing in England, swimmers at a bathing resort recently held a "dog race." They wore paper-mache masks in the forms of dogs' heads and at the start plunged from boxes resembling the starter's boxes at the canine events.

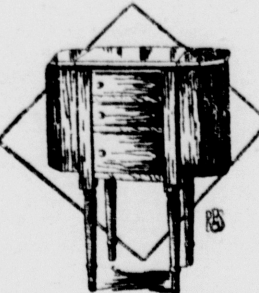

Among 2,000 applicants for 13 vacancies for railway ticket collectors in Lahore, India, recently, were many Indian University M. A.'s or B. A.'s, including both Indian and Anglo-Indians.

Haskin's Letter

(Continued From Page Four)

representatives conducted elaborate and long extended hearings in an investigation of the so-called money trust. Among the witnesses who appeared was J. Pierpont Morgan, dead now for some years.

Following are some excerpts from the testimony of Mr. Morgan:

Mr. Morgan: I know lots of men who can borrow any amount whose credit is unquestioned.

Examiner: Is that not because it is believed that they have money back of them?

Mr. Morgan: No sir. It is because people believe in the man.

Examiner: And it is regardless of whether he has any financial backing at all?

Mr. Morgan: It is very often.

Examiner: And he might not be worth anything?

Mr. Morgan: He might not have anything. I have known a man to come into my office and I have given him a check for a million dollars when I knew he had not a cent in the world.

Examiner: Is not commercial credit based primarily upon money or property?

Mr. Morgan: No sir. The first thing is character.

Examiner: Before money or property?

Mr. Morgan: Before money or anything else. Money can not buy it.

Examiner: For instance if a man has government bonds or railroad bonds and goes in to get credit, he gets it on the security of those bonds, does he not?

Mr. Morgan: He gets it on his character.

Examiner: Then he might as well take the bonds home, had he not?

Mr. Morgan: A man I do not trust could not get money from me on all the bonds in Christendom.

Examiner: That is the rule all over the world?

Mr. Morgan: I think that is the fundamental basis of business.

This testimony, coming from a man who had the reputation of personally buying Wall Street and the Money Trust made a startling impression upon the committee, but no one doubted the sincerity of the statement and examination of books and papers showed it to be true, not only of Mr. Morgan but of other big bankers.

For example, it was discovered that a man who had been sent to the Atlanta penitentiary on a conviction of causing heavy losses to stockholders in a company of which he was the head, came out after a term of years absolutely penniless. He went to a Boston bank and borrowed three million dollars on his unsecured, undorsed, promissory note. He repaid the loan in a year, having made a new fortune for himself during that period. He was trusted and the bank knew that the failure of his company and the sentence passed upon him were due to circumstances beyond his control.

Do not be discouraged if absolute truth cannot be found, hunting for it has man's civilization.—Fremont Messenger.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (Adv.)

The Way of the World

BY GROVE PATTERSON

THE MOST IS YET TO COME

In 1840 a certain man wrote to a congressman and suggested that the patent office be abolished. For, said he, everything that science and ingenuity can devise has already been invented, and the government is maintaining a needless expense. And yet, with the exception of the steam engine, most of the inventions upon which our amazing industrial civilization rests have been devised since that time. These sources of our astonishment have been brought into being in less than 100 years. The next 100 years will see greater marvels. Be sure of that.

HERE'S A PROBLEM

The most important development of the next 100 years ought not to be the devising of new inventions. There is something more immediate and more important to do than that. The big problem is to develop the judgment and the moral courage necessary to make the right adjustment to this complicated civilization. We have these amazing products of man's ingenuity. The next thing is to know how to make decent use of them.

THE PRISON

When St. Francis of Assisi lay on his death bed, and the end was very near, he repeated a Psalm. As he reached the closing words, "bring my soul out of prison," he died. The body is a prison in which the real man or the real woman passes a few years. Perhaps the prison may crumble and decay, but the prisoner can pass out into the freer air.

LITTLE FUSS

The earth, weighing 4643 trillions of tons, moves at the rate of 1100 miles per minute, at a distance of 93 million miles from the sun, in a path of 900 million miles. The earth does this without ruffling a feather or disturbing a grain of dust. Little man does all the feather ruffling and the dust throwing. The efficiency and workability of the universe is beyond little man's comprehension.

READ THE BIBLE

Victor Hugo named the old prophet Isaiah as one of the six greatest literary men of all times. He can still be found in the world's best seller, which is the Bible. Read him now—both for ideas and for style. If you are interested in learning some things about the English language, and haven't a Bible in the house, better buy one. They are cheap.

Fine Candies May Be Made At Home

How many girls know only three or four kinds of candy recipes? Yet there are 144 varieties that can be readily made in any home kitchen without special appliances. Recipes for this number of candies are contained in a booklet offered through the Washington Information Bureau of the Review-Tribune.

Here is just the thing you have been wanting for the Christmas candy season. The recipes are tried and tested and cover a wide range of tasty confections, some with just a few simple ingredients, others a little more elaborate. The Candy Recipes booklet is available for six cents postage and handling charge.

ointment worth \$100 A JAR

TO MAN WHO SUFFERED CONSTANTLY
FOR FIVE YEARS

Healed leg entirely

Spokane, Wash., March 21.—"While working in a stone quarry, I slipped and cut my leg and blood poisoning set in. The doctor stopped this, but my leg refused to heal. It became a running sore and hurt me so I could hardly do my work. I wore bandages constantly for five years, using several remedies without success. One day a friend recommended Resinol Ointment and after I had used ten jars of it my leg was entirely healed. This ointment is worth \$100 a jar to me, and I will never be without it in my house again."—(Signed) W. P. Bower, Box 593.

Resinol Ointment should be in every home. It's invaluable for cuts, burns, blisters, chafing, etc., as well as more serious skin disorders. All druggists sell the Resinol products.

Coolidge's "Stake" More Than \$400,000

He Will Worry About
Keeping Wolf From
Door When he Leaves
White House in 1929.

WASHINGTON, Dec. 9.—Calvin Coolidge will not have to worry about keeping the wolf from the door when he leaves the White House on the fourth day of March, 1929.

Practicing the same economy in his private life that he has insisted upon in government expenditures, President Coolidge will go out of office with a moderate fortune, amassed for the most part during his occupancy of the White House.

Personal friends estimate Mr. Coolidge's "stake" at somewhere between \$400,000 and \$500,000.

At the conclusion of the president's term, he will have served almost six years as president at an annual salary of \$75,000. Prior to that he was for two years in the vice presidency at \$15,000 a year, and before coming to Washington he enjoyed a \$10,000 annual salary as governor of Massachusetts.

In addition to the money saved during his term of office, the president inherited his father's estate, estimated to be worth around \$100,000.

How the Other Half Behaves

Five Cent Tip Journal.
NEW YORK—A taxicab driver who drove a passenger from Brooklyn Bridge to West and Liberty streets was tipped five cents after having been paid the regular taxi charge of twenty-five cents. But five cents as a tip did not seem to suit the driver and he expressed his dissatisfaction by punching the passenger in the nose. Magistrate G. W. Simpson in Tombs Court, where both appeared, reflected, however, that five cents for a tip on a twenty-five cent taxi bill is twenty per cent and that is liberal enough.

Absent-Mindedness New Fad.
LONDON, England.—To be really

up with the latest idea of society in London, one must pose as being absent-minded. If a guest asks for the

salt at dinner, just gaze in the distance, say "Salt-salt-yes, salt," then pretend to come out of a trance and pass the pepper. Young men and women have taken up the idea, so that social functions are attended by what appears to be a crowd of stargazers.

An Invitation For The Youngsters

Christmas is the children's holiday and our store is crammed from top to bottom with gifts that will delight them. Bring them in before Christmas and let them look their fill at the dolls, toys and games. They will enjoy it and we shall, too.

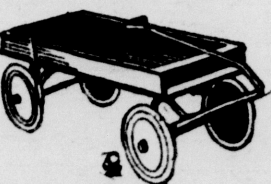

While the holiday is almost universal, it is not celebrated everywhere in exactly the same manner. In a country not so far away, the children are told to put their shoes on the windowsill and the Three Kings will come on their camels bearing gifts. Santa Claus with his reindeer would seem a bit out of place to the brown-eyed youngsters who have never seen a flake of snow.

FRED HUMES STRAND STAR

"One Glorious Scrap" Is Fast Western Picture.

"One Glorious Scrap," the Universal production now showing at the Strand theatre, is the peer of Western pictures. It is well directed, has a plot and characterizations, and some of the most beautiful photography ever seen in this type of picture.

The hero is portrayed by the hard-riding, hard-fighting, two-fisted Fred Humes who battles his bare-knuckled way through a maze of hardships and strife as a foreman on a Western ranch to win the girl of his dreams. The blue-eyed, fair-haired heroine is portrayed by Dorothy Gulliver and she has a most captivating role, indeed.

An unusual plot centers about the hero of the picture when he rescues an alleged rainmaker whom he figures might help the ranchers in his vicinity who are suffering from a protracted drought. He is double-crossed by the faker who plots with the villain and together they keep the story in whirl of action till the final fade-out.

Fred Humes demonstrated that he has a sense of humor hitherto submerged when he subjects some of the biggest laughs of the picture through the aid of his "four horsemen." This quartette of comedians comprising "Pee Wee" Holmes, Dick L'Estrange, Scotty Mattram and Benny Corbett carry the comedy and deserve their share of praise for bringing the chuckles.

WASHINGTON STEWART'S LETTER

HOUSE CLERK KING FOR HOUR AS LOWER HOUSE CONVENES

WASHINGTON, Dec. 9.—The speaker frequently is referred to as calling the house of representatives to order when a new congress meets.

Stopping to think a minute, we realize that this can't be. There isn't any speaker, to start with. There's a vice president, who does call the senate to order, but the lower house is without a speaker until it elects one. True, we've known all along that Nick Longworth would be re-elected this time.

It wouldn't do to take any such thing for granted, though. It might easily happen that there'd be some reason for making a change. In fact, there'd be sure to be, if a new party came into power with a new congress.

Lacking a speaker, the clerk of the house calls the representatives to order.

THE clerk's left over from the last session. He may be voted out of office pretty soon after the new one begins, but he has at least half an hour or so in the chair, anyway, while the speaker's being regularly filled, after which, of course, he turns over the gavel to the man the house has chosen.

Yet in case of a prolonged contest, such as could develop, in the event of a three-cornered fight, it would be possible for the clerk's stunt to take on considerable importance and last quite a while.

Thus is the clerkship of the house of representatives invested with a certain amount of majesty that does not appertain to the senate secretaryship, even though the latter may sound like a more imposing office, inasmuch as the senate considers itself a decidedly classier body than the lower chamber.

The representatives' clerk actually has a little stuff to strut, in the limelight—not much; 99.9 per cent of the time he's a mere hired hand, but that's all the senate's secretary is for a full 100 per cent.

NEEDLESS to say, it behooves the clerk to wear his honors with all modesty, for it's only as a convenience that he calls the house to order—the representatives could organize without him, if they had to, just as an informally-assembled public meeting can.

It's no great trick for somebody to get up, wish a temporary chairman onto the platform and get matters started.

If the clerk were to attempt anything "fresh," he'd speedily find his job taken off his hands. Indeed, in the past, one or two of them have undertaken to influence proceedings according to their own partisan ideas. They survived, officially, about two minutes.

THE house, perhaps, has had as good clerks before now as its present one—William Tyler Pease—but it's agreed, by majority and minority members alike, that it never had a better one.

Page is just starting on his fifth congress—that is, his ninth year—as clerk.

But my!—he's worked for the house of representatives, in one capacity or another, for more than 45 years. There isn't a member, of either house, who can remember congress as far back as he can.

Far from every having any fault to find with the presiding he does, when speakers of the house want to settle any knotty point in connection with

Marriage for Adults,
Not for Adolescents

Rabbi L. J. Levinger,
State University,
Scores "Companion-
ate" Plan of Kansas
Couple.

COLUMBUS, Dec. 9. — That marriage is for adults and not for adolescents, is the comment offered by Rabbi Lee J. Levinger of the department of philosophy at Ohio State university in regard to the widely discussed subject of "Companionate Marriage."

"There are three arguments why marriageable persons should not follow the plan of marriage taken recently by the Kansas couple," declares Dr. Levinger. "They are, first, the need of children in the home; preparation needed before each marriage and the necessity of love in the union."

"Marriage must be real and also permanent. Love is no more free than anything else. When I say marriage is truly for adults and not for adolescents, I do not mean a maturity of years. Adults in this case includes persons who can love and persons who have a knowledge of the beauties and obligations of married life."

Marriage without children, the Ohio

State professor believes, is nothing but a secondary one. He maintains that most of the divorce cases originate in childless homes.

"Most people are interested in marriage as a game, but it is far from being anything like a game. It is the one genuine and permanent contribution to the race."

BAN 1927 AUTO
TAGS DEC. 31

Use of 1927 automobile license plates will not be permitted after December 31, and motorists who venture on the streets on January 1 without 1928 tags will be subject to arrest, Chief of Police McDermott warned today.

McDermott urged car owners to apply at once for 1928 licenses which are now being distributed by Deputy Commissioner James S. Hilbert. The new tags will be honored on or after December 21. Less than 75 sets of plates have been issued since they were placed on sale about a week ago.

Keith Act Headlines Program at Ceramic

Pola Negri Stars in Screen Feature, "Woman on Trial," Opening tomorrow.

Fred and Jane Rinehart, in "Echoes from the South," a Keith headliner replete with comedy, catchy songs and guitar music, will be the stage attraction in conjunction with the feature picture, "The Woman on Trial," starring Pola Negri, at the Ceramic theatre tomorrow and Saturday.

Jesse L. Lasky, the score keeper for more stars than any other producer in pictures, asserts in his quiet way that Pola Negri has made her third straight hit in "The Woman on Trial."

Miss Negri is always interesting—always gorgeous, no matter what her vehicle. But she assures an astounding performance once given a suitable background for her talents. It would seem she has everything necessary in her latest production to insure success.

The story is based on "Confession," a powerful stage play by Ernest Vajda, Hungarian dramatist, who has a long series of splendid dramas to his credit.

The setting is in the Latin quarter of Paris and the theme is one of a love so strong that it proved worthy of every sacrifice a woman could make.

Mauritz Stiller, director, who so capably handled "Hotel Imperial" directed Miss Negri in "The Woman on Trial." Coming on the heels of

"Barbed Wire" a phenomenal picture, it shows Miss Negri at her best in an emotional role of strength and excellent motivation.

Charged with pulling bent grass on the seashore at Elgin, Scotland, David Mackenzie, aged 65, said that he had been doing only what his father and grandfather had done, but the railway company claimed that so much had been taken that its tracks were damaged.

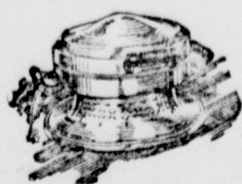

Lowling of cattle and bleating of sheep in the market beneath his office window caused so much noise recently that Judge Rowland Rowlands of Bridgend, England, had to adjourn court to a neighboring building until the market was concluded.

The Indian government having taken a firm stand that its order dismissing 1200 employees of the Bengal Napur railway in the interest of economy is irrevocable, prospects of settlement of the strike of 10,000 workers of the road appear to be remote.

WESTERN UNION USES PRINTER

Installs Simplex System In Office Here.

The Western Union Telegraph company today installed the Simplex Printing Telegraph system, the latest innovation in modern automatic telegraphy, in its East Liverpool office, in charge of Manager G. A. Race.

The Simplex Printer is a sort of long distance typewriting machine. The new system replaces the old-time Morse method, which required many months of training in the mysteries of the clicking sounder, and substitutes a typewriter-like apparatus easily operated by any one familiar with ordinary typewriting.

The Simplex Printer conducts greatly to both speed and accuracy, as well as to ease of operation. It has been adopted for general use by the Western Union company on all circuits of certain specified classes. Machines are being installed as rapidly as they can be manufactured. The apparatus is compact, being little larger than an ordinary typewriter, and weighing complete about 70 pounds.

In a majority of instances, the operators of the Simplex Printers are young women. The operator sits before this typewriter, which has everything but its keyboard housed in a glass and metal jacket, and taps out a word on the keys. Letter by letter the electric impulse of that word slip out over the wire to a distant city, setting up impulses in another supertypewriter at that end in such a manner that the corresponding typebars are pulled down and the message is typewritten on the dry side of a gummed paper tape. Another girl seated before the supertypewriter at the distant end picks up the tape as it flows from the machine and with the aid of a small gumming instrument, glues it rapidly to a telegraph or cable message blank, after which the message is ready for delivery.

CHAPTER XIII.

HORACE LAMBERT'S voice broke in, cheerful and good-natured.

"You two quit fighting. It strikes me that this is a great deal of to-do about nothing, when we really have some important questions to consider."

My opinion—and I think I can speak for the others—is that Peter has always been too confidently conceited. But I fail to see that this failing is less broad than it is long. Certainly he has built this company from a bankrupt state to the point where it is about to be a fairly large factor in the industrial scheme of the section. And I, for one, vote that he be given the usual free hand in whatever he wishes to do."

A short, stout, jolly man at the corner of the table made a laughing remark: "Peter will do it anyway, Jonas."

Merriweather knew that he was beaten. The cold light remained in his eyes, but he was forced to smile. "I was giving advice—not orders, Peter."

"Thank you, Jonas."

"And of course, you must not talk of resignation. I think the experiment is Quixotic, but if you insist—" "I do."

"Let's quit this and get down to business." It was Lambert speaking. "We've got a financial question to consider, and a damned important one. Have you brought your statement, Borden?"

"Certainly." The vice president opened a brief case and took from it

a sheet of neatly type-written paper. "I have prepared this data carefully and if you wish—"

"Don't read it. Give us a summary."

"Shoot!" ordered the round-faced man.

"Briefly, then, gentlemen—this company has been built up from nothing in the face of some rather bitter opposition. We are ready to move into our new plant—a plant that was necessary if we are to continue our expansion. The building of that plant has been delayed because of a strike which has placed ourselves and the contractor in a rather delicate position. Callahan has laid his cards face up on the table. He tells me that if we force him to pay the forfeit under the contract for non-delivery of the plant on the specified date, he will be forced into bankruptcy. That might give us satisfaction, but certainly no profit. Now, my idea is that we pool our interests with Callahan's, finance the settling of his labor troubles on the basis which the strikers ask, ourselves pay the difference and rush the plant through."

"And that will cost us how much?"

"Nothing in the end. It will require, however, about a quarter million dollars within the next three months. And these may be the necessity for another call later."

"And where are we to get this money?"

"That is a matter for you gentlemen to consider. Actually we will make a profit on this within two

years. Otherwise our production will come to a standstill and we will face lawsuits over non-delivery of orders accepted on the basis of our increased capacity. If we raise this money—"

"We have exhausted our credit with the banks. They have loaned us every possible cent to finance this construction."

"I know that. And since this is very much of a closed corporation and can therefore proceed in a rather unorthodox manner, it is my idea for us, as individuals, to lend money to the company for—say—two years."

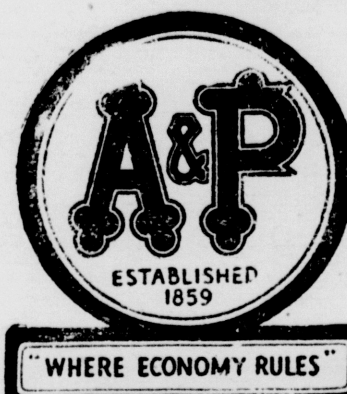

"How?"

"Negotiable securities. Among us, we hold Liberty bonds, for instance, to considerable more than a quarter-million dollar total. Suppose, then, that if the crisis cannot be averted any other way, we lend those bonds to the company without interest. We can borrow face value on them from the bank and have the money which is essential to use if we wish to avoid a more serious condition. My idea is to finish the plant and rush into big production as soon as possible. Of course, there is a chance that this will not be necessary. Callahan is not entirely pessimistic. But we must prepare."

Lambert interrupted. "I'm for it. There isn't an outside share of stock in the corporation and we fellows have known each other all our lives. What goes on inside the company is

our own business—and not to be governed by general rules of industry. We're really risking nothing, and buying safely at medium cost. My vote is aye."

"And mine!" chorused two others. Borden held out a restraining hand. "No necessity to rush. I merely wanted to explain the situation and sound you out. If you agree with my plan, then I shall know how to proceed. We may not have to do it at all; or again, we may need the money in an instant—to re-establish credit. Is it agreed?"

They nodded. "Sounds like the only way," remarked Merriwether. "I can spare a hundred thousand dollars' worth now."

"Good. And you, Horace?"

"Forty." "I can put in forty thousand," said Borden. "And you, Jim?"

Ten minutes later the chairs were scraped back from the table. But when the others left, Jonas Merriwether held back. He dropped his hand on Borden's arm.

"I trust your business judgment implicitly," Peter, he said, "but I'm doubtful about this Bob Terry thing."

"There's no need, Jonas. The boy is pathetic."

"I agree. But he has been exclusively in contact with criminals for three years—and he is human. Don't forget that, Peter. He is human."

"Good! Jonas—that is the very thing I am trying not to forget; can't you understand?"

"Yes," answered the president, "I can. Better, perhaps, than you."

Twice Lois walked past Bob's door. Twice she paused and raised her hand to knock. And twice the thumping of her own heart frightened her and she moved away in a panic.

From beyond the door she had

heard the even thumpthumping of Bob's feet; that rhythmic tread back and forth, back and forth. The sound begot visions which she did not like—visions of this young man in a prison uniform, pacing the narrow barred confines of a cell—across and back—across and back. She visualized him surrounded by hundreds of convicts, sharing a cell with four of them; and each sight of his haggard face, his sunken eyes, his pallid cheeks, brought home to her some thing of what he had experienced.

Lois was more worried than she knew. She herself did not realize what Bruce Richardson already knew—that her pity for this man had overstepped the bounds of impersonality.

Lois herself would have been amazed at the knowledge that she was in love with Bob; she did not realize that he had excited her sympathy and aroused to the full her latent maternal instinct, and that these sentiments had crystallized into something deeper and more poignant.

There was much that Lois did not know about Bob Terry, and by the same token, there was much that she did know. She knew, for instance, that he was not unconscious of the fact that those who tried to cultivate him did so because they were curious; she knew that there was no business man in the city who would trust Bob. The bitter light of the criminal flamed occasionally from his eyes, and at times he was furtive and secretive. But society had been outwardly nice to him, because he was the seven days' wonder of the city; the man who had served three years in a penal institution for a crime he had not committed.

There were some who came to the Borden home with the idea of asking questions. There was one woman—a social worker interested in prison reform—who called one afternoon with the idea of discussing with Bob her

theories of prison life. He had sat in the corner staring at her out of his dark-rimmed eyes, and finally he had risen and walked from the room without a word. The lady was duly insulted and properly scandalized and went around the city telling her friends that Bob Terry was a beast who belonged in prison.

Lois knew that the public believed that Terry belonged to it. Individually and en masse it offered community sympathy when really all it held was curiosity. Newspapers tried to interview him and at one such attempted interview Bob remembered that he was no longer a convict and told a particularly impertinent reporter to go to hell. This reporter rushed back to his office and wrote an interview which his city editor wisely refused to print.

"Libelous," said his man, "and damned unkind."

(To be continued.)

"LAST TRAIL" AT AMERICAN

Tom Mix Stars in Zane Grey Story.

Tom Mix and Zane Grey! The result of this unusual combination is now on view at the American theatre. "The Last Trail," Mr. Grey's blood tingling novel, starring the popular Western star, opened last night. Judging from the reception accorded it by the first audience, the film is going to prove decidedly fine entertainment for those who see it during its stay here.

Mix and his almost equally famous steed, Tony, are involved in some of the fastest and most furious actions ever recorded by the camera in this whirlwind story of the plains. When the picture opens, Tom is cast as an Army scout in the Dakotas during the last Sioux Indian uprising. Later, he is pictured as the foe of a gang of desperadoes who specialize in looting stages.

Tom Dane (Mix) gets into all sorts of trouble with the villain, Kurt Morley, played by William Davidson. A stage coach race, in which the two participate, is thrilling in the extreme.

Carmelia Geraghty, Jerry the Giant and others are seen in support of the star in a film which should not be missed.

The American announces the coming of Norma Talmadge, Monday, in her greatest screen achievement, "Camille."

We Float off the Broken "Crippled" Beans

ONLY perfect, whole beans of the finest high-altitude coffees are used in the blending of SWANSDOWN. This insures a rich, full-bodied coffee—aromatic and smooth—and always uniform in quality.

When the cover of a berry splits open too soon or the shell of a bean is broken, the flavor alters greatly. Failure to float off these "cripples" compromises the flavor of an entire roast.

SWANSDOWN, made from full-bodied beans only, is always uniformly smooth, rich and delicious. A meal is only as good as its coffee.

The Gumps By Sidney Smith

Andy's advertisement for 1,000 men to act as members of the Gump Guards made his headquarters the rendezvous for a vast army of would-be warriors all more than willing to enroll under his golden banner — most of them have been "soldiering" all their lives and are going to do their best to prevent anyone except members of his guard from robbing Andy.

THE GUMP GUARDS ARE SOLDIERS OF FORTUNE — FROM EVERY LAND — THEY ALL SEEM TO KNOW THE MANUAL OF ARMS OF THEIR OWN ARMY — BUT I HAVE SAMPLES FROM A HUNDRED ARMIES — AND I WANT YOU TO DEVISE A COMPOSITE DRILL THEY CAN ALL UNDERSTAND — YOU WILL HAVE TO COMBINE THE DUTIES OF A DRILL MASTER AND INTERPRETER.

I WANT YOU TO CONSTRUCT A MATCHLESS MILITARY MACHINE THAT WILL BE STRONG AND FLEXIBLE — WARLIKE AND INTELLIGENT — I'M PAYING FOR AN EIGHT HOUR DAY — BUT THEY'LL GET TIME AND A HALF FOR OVERTIME — SO THE LONGER YOU DRILL THEM THE MORE THEY'LL EARN —

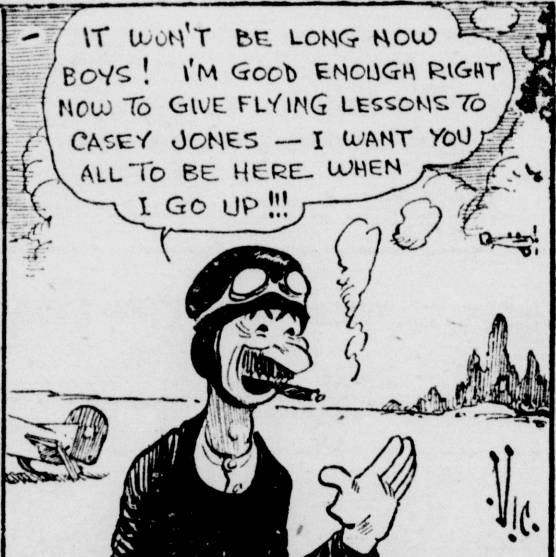

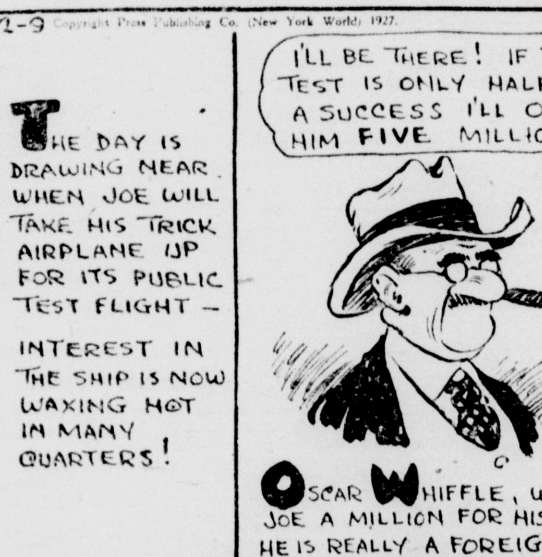

TELL THE BOYS NOT TO THINK OF ME AS THEIR COMMANDER-IN-CHIEF — I WANT THEM TO REGARD ME AS A FATHER WHO WILL ALWAYS HAVE THE WELFARE OF HIS CHILDREN AT HEART — BUT LET THEM KNOW I WON'T STAND FOR ANY FUNNY BUSINESS — I WANT DISCIPLINE —

MOST PITIFUL CASE

Mr. John S. Flanagan, 703 S. Adams St., Peoria, Ill., says: "In 1922 I had one of the most cases of inflammatory rheumatism any one could have, covering a period of five years, suffering terribly and constantly. Could not get around, except on crutches, unable to dress or undress myself. Tried everything known to man of science, including two trips to Hot Springs, without relief. Up to this time, had paid out over \$1000, then like a miracle from Heaven, Qucko Remedy was brought to me. I'm not exaggerating in stating that this remedy took me off my crutches in four weeks. Since it cured me, I personally know it has cured over 500 cases in Peoria, many like mine, chronic and given up."
